

## Application Building Phase

### Creating Our Flask Application And Loading Our Model By Using Load\_model Method

Date	19 November 2022
Team ID	PNT2022TMID12370
Project Name	AI-Powered Nutrition Analyzer For Fitness Enthusiasts

```
app = Flask(__name__,template_folder="templates") # initializing a flask app
# Loading the model
model=load_model('nutrition.h5')
print("Loaded model from disk")
```
